# Work Experience at The Beatles' Childhood Homes

In July 2024, Sam travelled to Liverpool to undertake a days work experience at the Beatles' Childhood Homes. This is what the National Trust had to say about it ....

“In July, we had the pleasure of hosting our first ever work experience placement at The Beatles' Childhood Homes. Sam, who travelled up from Bournemouth, stayed in Liverpool and spent time at the home of Paul McCartney. During his time here, Sam observed the daily operations and learned fascinating facts about The Beatles. Under the guidance of his support worker (Alex), Sam was even able to share some of these facts, provided by John our tour guide, during the end of the tour. It was a truly wonderful and enriching experience for both Sam and Alex.
