

Outcomes:

- Listening and Following instruction from staff and work colleagues.
- Working as a team.
- Demonstrating good behaviour to the public.

Description of trip: Anglia way-

Today Anglia way trip was to the laser force in Peterborough and playing a few games on pool in Queensgate. However, they have been here before but love coming here and enjoying playing as a team and singly. Firstly, we played a game of singles and then went on to playing a game of teams which was very competitive but fun everyone loved it and this was very good for teambuilding skills and hand coordination after that we have one game of singles again which was very good and everyone worked together and tried to get the target as many times as we could.

After laser force, we went to Queensgate where we played a few games on pool, this was very good for our students because this helped them communicate between each other and supporting one another with their games. One of the peers helped each other take it in turns to play which was very nice and everyone enjoyed this.

We all went to McDonalds and had a hot or cold drink of our choice (no caffeine) and sat at the table together and then went and hand lunch.

Quotes:

We've got this!

This has been such a fun and good day. Can we do this again?

Can we have a sing song?

This Mission: 3
