

School news of the week.

## NEWSLETTER

### Primary:

The pupils have had an enjoyable outdoor education session this week. They have taken part in archery activities and have learned how to make fires with Phil and Paul. The pupils also cooked burgers and sausages on the fires – see the pictures below

### RR1, RR3 and Post-16:

#### Art

The pupils have celebrated the Lunar New Year by finding out which animals of the zodiac they are linked to. The pupils have also created 'collage snakes' and made suncatcher hearts for the windows around school – they definitely brighten up the school!

#### Science

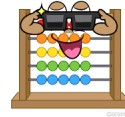

One of our groups have been making 'slime'. It seems the Headteacher does not like the feel of it at all.

#### Outdoor Education:

Two more of our students have completed their 'NICAS Climbing Level 2 Award'.

### English challenge:

When my father was 31

I was 8 years old

Now he is twice as old as me

How old am I?

### Answer:

### DID YOU KNOW?

#### Teachers' fun fact:

Venus is the only planet that spins clockwise.

#### Fun Fact:

Lemons float in water but limes sink.

#### World news this week:

New research has shown that woods and wildlife make us feel better.

A study of 10,000 people has shown that 90% experienced mood boosting benefits of time spent outdoors and, in the woods - let's all try this and see if it is correct!

#### General information:

As a staff team, we have completed training about phonics within KS3/KS4. It has been great to further develop our own knowledge and understanding.

Pupils have accessed more Lego Therapy this week – below are some examples of their work.

We hope you all have a lovely half term.

School resumes on Monday  
24<sup>th</sup> February.
