

Spot the Pupil?!

Students who attend Spring Hill enjoy a broad and diverse curriculum; and what better way to enjoy the extensive grounds than engage in vibrant and unique Outdoor Education sessions?!

Recently, Brax and Izaak very much enjoyed the opportunity to develop their survival skills by doing their utmost to hide from the staff! As part of this planned activity, the two students were set the challenge of being as quiet as possible and developing the resilience to ignore all manner of creepy crawlies that they could encounter whilst scrambling through the shrubbery!

I think you'll agree that both children did an amazing job of meeting the challenge whilst having an incredible amount of fun!
