Edition #17 2022

Promoting happy, healthy and sustainable living at Hill House and beyond.

THE JOY THAT MUSIC BRINGS!

Back in November 2021, we held a *Green Dragons' Den* where teams had the opportunity to present their ideas on sustainability at Hill House School. *Cedars Climate Army* pitched an idea to build on the success of their online movie experience with Disney+.

With the introduction of new technology and safe access to a digital library of movies, our young people no longer have to rely on DVDs that are easily damaged, lost, and stored in plastic cases.

They now benefit from being able to choose and access their favourite movies at any time, as well as explore new movies from a large, age-appropriate selection.

As part of their presentation, *Cedars* demonstrated the joy that music can also bring by sharing a video of EM's experience with music in the car. PR and EM are piloting an exciting new venture with soundtracks and audio books for the whole of Hill House and are currently having fun building their digital playlists.

ONE PLANET LIVING CHAMPION

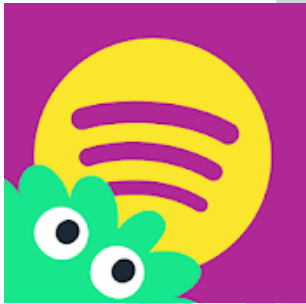

As February's One Planet Living Champion, we asked Sonia Lancaster, Team Manager in Cedars, to share her thoughts on the difference that Spotify has made.

"In the Cedars, we have been very excited that we now have access to **Spotify**. PR has been having lots of fun making her new playlists and listening to her favourite tunes. We love having access to **Spotify** when we are out and about with easy access to the children's songs."

The aim is to roll this out to everyone in the near future!

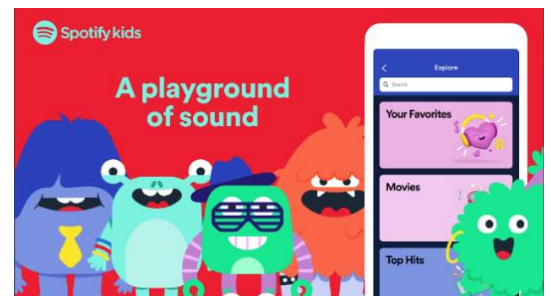

SPOTIFY KIDS

The streaming service, Spotify, will give our young people the same opportunities with music as they currently enjoy with Disney+. Each young person has their own eclectic taste and access to the Spotify Kids app will give them the chance to build unique playlists that they can take everywhere with them: to share with friends, at parties, in the car when they're out and about, or even home for holidays. No more sorting, misplacing, or having to take care of CDs in plastic cases!

With Spotify Kids, our young people can:

- ♥ Enjoy kid-friendly content handpicked by them.
- ♥ Listen to music, audiobooks, and more.
- ♥ Soundtrack their day, from playtime to bedtime.
- ♥ Reduce their use of plastic and plastic waste.
