

### This Week:

- Marshmallow Experiment
- Teaching Assistant Appreciation Day
- Staff Vs Students

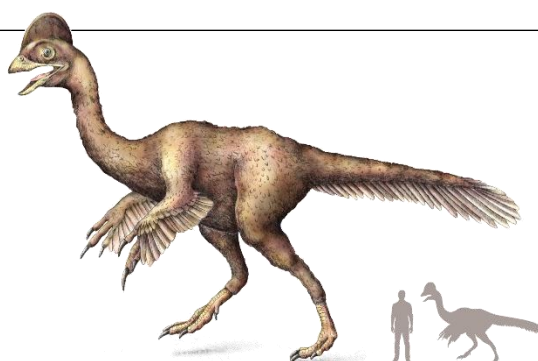

### Second Week Back!

This week our students have completed various activities in Science that would blow your mind! As part of their BTEC Level 1 Introductory in Applied Science, students completed an experiment identifying the independent, dependent and control variables. They also had to talk about Health & Safety and safely using the Bunsen Burner without support from staff. Students enjoyed making some of the staff a hot chocolate to add to the mix!

In addition to Science, students have also been very competitive this week playing Uno and Scattergories with staff. At Chesham, we love a bit of healthy competition, and so do our staff and students! Let's just say the students had the upper hand!

Finally, today is Teaching Assistant Appreciation day. Students enjoyed making mugs for their TAs to show how much they appreciate their hard work and dedication.

Thank you for everything you do!
