

Outcomes:

- Learn about the gardens
- Behave well in public place
- Visit the animals

Description of trip: Today, class Meerkats went on a trip to Norfolk lavender.

When we got there we explored the lavender garden. They are trying to grow every different type of lavender. It smelled lovely! We then saw a man working at the distillery and he was kind enough to explain how they made lavender oil. We then found a bench to eat our snack before going to see the animals.

We walked through the gift shop to get our wrist bands we needed to go to the animal area. The first animal we saw was 2 huge porcupines! We also saw many types of chickens and birds. There was a lot of animals outside but also, there was a barn where we were able to go and pet the rabbits.

BS2 found a small shed like building and when we went inside we realised it was full of snakes and other cold-blooded animals! We loved this part of the day.

Finally, before heading back to the car, we went into the hornbeam maze and got a bit lost! We enjoyed the day very much.

Quotes:

EM  
"I want to stay forever"

BS2  
"Petting the rabbits was the best bit"

EM  
"can we come back?"
