

Outcomes:

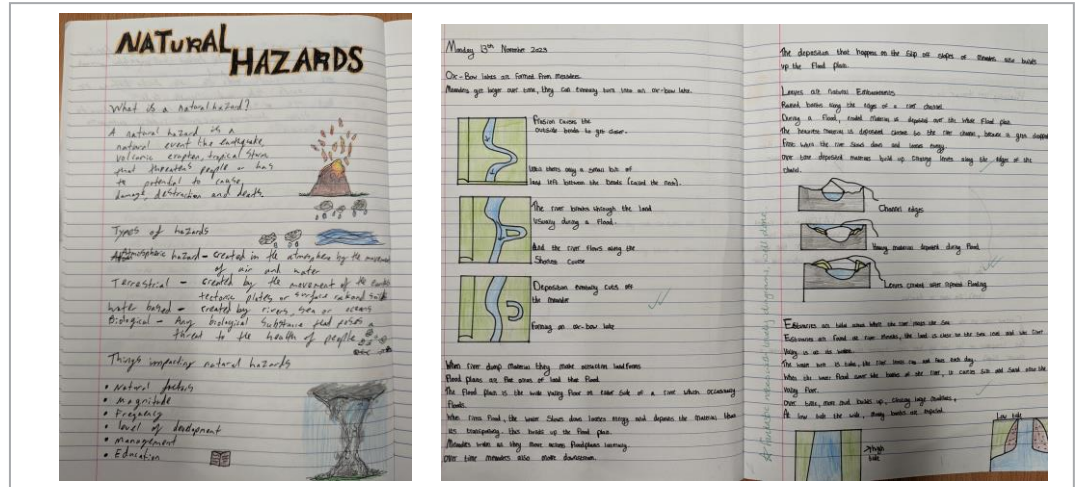

To understand how the world is changing

To understand that many factors impact how countries develop.

I know and identify the features of coasts

To know and identify the features of rivers

To understand what natural hazards are and how we can deal with them.

The pupils at Anglia Way have been working really hard in their Humanities lessons. Year 10 and 11 have been particularly busy working on their Geography topics in preparation for their exams.

So far this year, the pupils have been learning about Coasts, Rivers, The Changing Economic World and Natural Hazards. It is fantastic to see the pupils working so well in lessons and being able to use their learning in other subject areas.

Quotes:

"I'm going to smash my GCSE's!"  
CS

"I can't wait to learn about volcanoes!"  
PJ

"I got full marks"  
KN
