

## Forest School (November 2023)

In November our students enjoyed visiting the local woods for an outdoor afternoon to complete campcraft activities and to build shelters.

The local woods are called Raincliffe Woods, they are situated to the north-west of Scarborough and they form an “L” shape with Forge Valley Woods and the River Derwent.

Forest School is a nature-based, child centred inspirational learning environment which encourages play, exploration and supports supervised risk-taking. It helps to develop confidence and self-esteem through child led hands-on experiences in natural settings

Our students thoroughly engaged in the experience and enjoyed being outdoors in the fresh air an open space.
