

ITS COMING HOME!!!

On Monday the 3rd of June 2024, 3 students were selected to attend the England VS Serbia Euro 2024 warm up game at St James Park in Newcastle!

A new experience for all three students as they have not visited the ground before. A day in school and then off they went. It's only a short journey from Hartlepool to Newcastle but the journey was made a little bit longer due to a flat tyre, whoops. Quick visit to Kwik Fit and the tyre was changed a quick as a F1 pit stop tyre change!

Back on the road we go. Excitement building, stomachs rumbling so off for food we went. After trying 3 different places we settled for fish and chips where one student took full advantage and went for the full experience of an old school chippy tea, including his cup of tea!!

One student even wanted to show off his full stomach....

Stomachs filled and kick off approaching, the student took the short journey up towards St James Park, streets full of England fans, roads and walkways covered in red and white shirts and flags, it was time to watch our countries best football players put on a performance. Warm ups completed, seats found and we were ready to see what the score would be this time around.

45 minutes in and the excitement must have made the students hungry. Off for a drink and snacks they went ready for the second half. Then the game opened up, 1-0, 2-0 then 3-0, England had done it again, and chants of "Its Coming Home" started to echo around the stadium.

Another enjoyable game for our football fans.
