

## **CWC Celebration Story – Connor Holloway (Assistant Grounds-person)**

Connor had been a student at CWC for two years and was seeking employment. As part of our Preparation for Adulthood programme, the college employs students in part time, temporary roles every year to support them gaining experience in their chosen field to gain full time employment in the future. Connor successfully interviewed for the role as Assistant Grounds-person at the college and has been instrumental in redesigning and refurbishing not only the garden at the college site but also the gardens at our four homes. Throughout this year, he has been nominated for Employee of the Month 6 times and received the accolade in March! We couldn't be prouder of the progress he has made, his outstanding work ethic and the beautiful gardens we all now get to work in – Thank you Connor
