

# Wimbledon Tennis Championship Trip 2024

This week six students have had the opportunity to visit the historic Wimbledon Tennis Championships. All students were an absolute credit to both the school and their individual families through out the entire day. Whilst the trip was primarily focussing on the fantastic tennis on show, students were also able to work on a wide range of life skills during the day. Students were able to experience a range of new experiences, such as; boarding a bus within a city centre, shopping in an extremely busy environment, observing differing cultures and traditions and use of timetabling to name but a few.

Our allotted seating on Court 2 allowed the students to watch the action on both our court and the outer courts behind. As such the students saw over 10 games of tennis during the day! Students were also fortunate enough to feature on the live BBC coverage at several opportunities during the day and were treated to the championship's traditional strawberries and cream before heading home.

All the students thoroughly enjoyed the day and were keen for the PE department to organise this again in the future, despite the midnight arrive back in Devon and Somerset!
