

## Cricket Trip

This week we have been fortunate enough to take 14 students to Somerset Country Cricket Clubs Schools Day event. The event allows over 2500 students from across the South West to attend a professional cricket match for free, with a range of activities staged around the outside of the ground to ensure all participants have a day to remember. Our students took part in a range of throwing and bowling activities and were given pointers by the staff at Somerset County Cricket Club, before finding our seats and settling down for the action.

Students were also able to meet Somerset players, Will Smeed, Ned Leonard and George Thomas who were signing autographs and taking part in the activities as the day progressed.

During the lunch break staff and students were invited to walk onto the outfield and experience what a high-level professional sports person might feel during play.

It was fantastic to see our students interact with students from other schools, and to do so with both humour and friendliness.

We look forward to further trips in the future.
